Philip Kalinowski

Quality Assurance · Software Validation · Defect Analysis
LinkedIn · phil.kalinowski427@gmail.com · Spartanburg, SC

SUMMARY

Quality Specialist with BMW Group experience validating vehicle software on current and upcoming series models, documenting defects by severity with full reproduction detail and tracing issues to root cause through system logs. Background in precision machining and software development, with SQL and dashboard experience for quality reporting.

RELEVANT EXPERIENCE

BMW Group · Spartanburg Plant, Greer, SC — 2025 – 2026
Quality Specialist · Systems Integration

- Tested the latest software clusters on current and upcoming BMW series vehicles; logged defects in Octane by severity with complete documentation, reproduction steps and root cause notes.
- Executed vehicle diagnostic tests on pre-production prototypes across diagnosable and non-diagnosable components.
- Performed Remote Software Upgrades (RSU) on fleet vehicles and confirmed results through Kibana deployment logs, flagging anomalies for engineering.
- Validated customer-facing features including Apple CarPlay, Android Auto, Bluetooth and ConnectedDrive on prototype vehicles.
- Managed vehicle readiness in the Fleet Management System before and after software upgrades.
- Authored RSU deployment tutorials in Confluence for the X5 launch, later referenced by BMW teams globally; reported weekly test status to U.S. and Munich HQ teams.

BMW Group · Spartanburg Plant, Greer, SC — Jan 2023 – Aug 2023
Software Engineering Intern

- Built KPI reporting for managers that separated real problems from normal variation, so attention went to genuine issues.
- Wrote SQL in Oracle Apex and migrated existing Power BI report logic into a consolidated Apex dashboard.

Peerless Tools and Machinery · Enfield, CT — Dec 2017 – Aug 2018
Machine Operator

- Operated a waterjet to cut parts within specified tolerances from engineering blueprints for aerospace customers, including Pratt & Whitney and United Technologies.

Interactive Projection System · RIT Capstone — 2024
Project Manager · Developer

- Led a team from requirements through delivery and ran manual test cycles at each integration point of a Kinect-to-projection system (C# in Unity · Git).

SKILLS

- Software Validation · Test Execution
- Defect Documentation · Severity Triage
- Root Cause Analysis · Log Analysis
- Diagnostics · RSU / OTA Validation
- Blueprint Reading · Tolerances
- Octane · Confluence · SAP
- Kibana · Elastic Stack
- SQL · MySQL · Oracle DB · Oracle Apex
- KPI Reporting · Dashboards
- Agile · Cross-functional Teams

EDUCATION

Rochester Institute of Technology — 2021 – 2024
B.S. Software Development · Rochester, NY

University of Connecticut — 2019 – 2021
B.S. General Studies · Minor in Computer Science · Storrs, CT
